6. Old Business:

a. **SEMMEX 2019:** President Ron Harris announced that SEMMEX is scheduled for Saturday, March 9, 2019. The church was reserved again for this year's event. Chairman John Aiello noted several modifications to next year's SEMMEX to make it more cost effective and guest friendly based on last year's feedback.

b. **CORSAIR:** John K: The Vought Corsair at Selfridge is currently being repaired with sheet metal. This is a FG1D version.

d. **DUES:** After a lengthy discussion on club finances, John A made a motion to increase club membership dues after several years without any increases. The motion passed to raise club dues from \$20/year to \$30/ year starting in 2019 and beyond.

e. **Christmas Party:** The Christmas party was again successful at the December 2019 meeting. Everyone brought a dish to pass and there was way more good food than the group could possibly consume. John A spent \$400 on model kits whose cost was mostly covered by the purchase of raffle tickets prior to the raffle drawing. The event was a win-win for everybody in the club. Thank you for your commitment and participation to the event and to our club. This event will stay listed to remind everyone of what we did and that is was successful.

f. **Region IV:** The new Region IV coordinator is Paul Helfrich from IPMS Dayton. He replaces Dave Koukal.

g. **Theme Contest:** Bob Taylor won the **Modeler of the Year Award** (Trophy and Prize Money) for the 2018 season at the November meeting. Second place went to three-time champion Ron Harris, and third place to Dan Hess. Honorable mention for a very close 4th and 5th place goes to Victor Scott and Chris Causley. Thank you to everyone who participated in the contest throughout the year.

h. **Bench Contest:** John Robbins awarded a hobby prize to Victor Scott for winning the best bench contest for this year. Photos of members' work benches were posted on Facebook for everyone to see and to determine the best bench in the club.

i. **Officer Elections:** The current officers were re-elected for 2019 by a unanimous vote at the December meeting. Returning officers are club President Ron Harris, Vice-President Jim Ashford, Treasurer John Robbins, and Secretary Dave Snyder. The Contest Committee Chairman position is an appointed position currently held by John Aiello.

7. New Business:

a. President Ron Harris asked for kit, tool, or modeling supply donations for SEMMEX in March. These will go on the raffle table at the event and serve as fund raiser.

b. President Ron Harris challenged everyone to build something from the PVC tubing that formerly served as table risers at previous events. A prize (?) will be awarded at the April meeting for best tube entry....

c. The Tru-Color Paints rep will be at SEMMEX this year to promote their product and give some demonstrations on the products.

8. Request for Information (cumulative):

a. Dave L is looking for a 1/72 scale WWII Buzz bomb.

- b. Victor needs a 1/48 scale figure that is sitting and looking like he is driving.
- c. Lloyd/Dave S-asked about which putty was better on kits. John A suggested Tamiya Gray Putty and AVES putty (2 part putty) or Velio. John F uses automotive putty. Testors putty seemed to shrink.
- d. Lloyd needs ideas on how to store and keep CA for a longer amount of time. John A recommended buying other types of CA as they tend to keep longer. Dave S said to keep it in the fridge and out of the light.
- e. Mark S wanted to know how to use any type or combination of filler on clear parts. Suggestions were white glue, or use canopy glue, or to use a clear sprue cut up and mixed with Testors glue into a liquid state-then fill and sand.

9. Hints and Tips (cumulative):

- a. John A recommended using metal reamers for cleaning airbrushes
- b. Dave S discovered that using Pledge Floor Care over painted plastic parts allows for either acrylic or oil based paints to be used on the next coat of paint.
- c. John A: Told us that Tamiya tape is cheaper at Michaels but is called Washi masking tape in different colors. Use the Michael's coupon to get half-off.
- d. Dave S recommended buying a paint shaker as it prolongs the life of the bottled paint and keeps it from becoming sludge over time. He also writes the purchase date on the bottle cap to track its age.
- e. Dave L had a bad experience using super glue excellent on clear canopy windows.
- f. John R uses non-stick shelf paper from the Dollar Store to spray paint through to give the piece a digital camouflage look.
- g. Dan H suggested using Elmer's wood putty as it dries like sand for dioramas.
- h. John A suggested using Tamiya Panel Line Wash for panel lines as well.
- i. John K: Uses powdered graphite on gun barrels to weather them. This can be found in the hardware section of the hardware store or pinewood derby section of the hobby shop.
- j. Ron H: Uses 2 different color primers, then applies one color of paint over them to get two different shades on the subject. He uses textured paints for interiors to simulate leather surfaces.
- k. Tim W: applies car wax to his finished car bodies to make them shine.
- l. Bob T: soaks vinyl tank tracks in oven cleaner to soften them up before assembly, then clean with soap and water, rinse, and use matt black base primer on them.

10. Show and Tell (new):
